Pre-Shelter Questionnaire
Civil Defense Information
(ES VIII)

Question 1

1. Single Category - 3% answered affirmatively (N=31, X=1)
2. Married Category - 2% answered affirmatively (N=49, X=1)
3. Total Population - 3% answered affirmatively (N=80, X=2)

Question 2

1. Single Category - 0% answered affirmatively (N=31, X=0)
2. Married Category - 11% answered affirmatively (N=47, X=5)
3. Total Population - 6% answered affirmatively (N=78, X=5)

Question 3

1. Single Category - 53% answered affirmatively (N=30, X=16)
2. Married Category - 48% answered affirmatively (N=46, X=22)
3. Total Population - 50% answered affirmatively (N=76, X=38)

Question 4

1. Single Category - 14% answered affirmatively (N=28, X=4)
2. Married Category - 32% answered affirmatively (N=47, X=15)
3. Total Population - 25% answered affirmatively (N=75, X=19)

Question 5

1. Single Category - 60% answered affirmatively (N=30, X=18)
2. Married Category - 29% answered affirmatively (N=49, X=14)
3. Total Population - 41% answered affirmatively (N=79, X=32)

Conclusions:

1. On Question No. 2, most people gave negative answers except in the older age groups (i.e., 30-50 and older).
2. Questions 3, 4, and 5 were answered affirmatively more frequently than 1 and 2.
3. Question 3 shows that 67% of married males know the location of fallout shelters while 72% of married females know shelter locations.

**Revised Pre-Shelter Questionnaire
(ES VIII)**

Following ES VII, analysis of the Pre-Shelter Questionnaire indicated that some questions could be quantified and others needed revision. As a result the following Questionnaire was administered with the results given in table form.

**Revised Pre-Shelter Questionnaire
(ES VIII)**

Question 1

1. The three top activities in first choice were reading, swimming, dancing.
2. The three top activities in second choice were reading, sewing, cards.
3. The three top activities in third choice were reading, records, swimming and dancing.

Question 2

The first choice of most sheltrees for outside-the-home group activities was church and church groups. School and school groups ranked second.

Question 3

The most frequently listed attendance rate was weekly while two times a week was ranked second.

Question 4

Most sheltrees listed six years as the length of time they had belonged to their first-rank preference group. The second most frequently marked time span was two to three years.

Question 5

A majority of the sheltrees stated twelve years of school to be the length of their education. The next most frequent category among those who had no more schooling than high school was eleven years. Ranked third were persons who had finished four years of college.

Question 6

Most sheltrees stated their high school grade average was "B." In second place was the "C" group while in third place were those who averaged "A" for their high school career.

Question 7

In first choice among the shelterees regarding the subjects in which they made their best grades during high school were math, English and history. Ranked second were math and English.

Among college students math was the subject in which the best grades were made while education was ranked second.

Question 8

In first choice among shelterees regarding favorite high school subjects were English, math, and history. Ranked second were history and math.

Among college students history and science were the favorite subjects while English, sociology and political science were ranked second.

Question 9

Professions most frequently represented among the shelteree population were the U. S. Navy, machine operator, student, secretary, homemaker, laborer, and inspector.

Question 10

The job categories most frequently represented among the shelteree population were unskilled and skilled laborers.

Question 11

Most shelterees stated that they would prefer a job with both physical and mental labor over jobs which emphasized one primarily.

Question 12a

Secretary, manager, and teacher were ranked in the top three positions regarding employment positions expected to be held in the future.

Question 12b

Expected salaries in the new positions were ranked in the following order: first, \$2501-\$5000 range; second, \$5001-\$7500 range; and third, \$20,000-and-up range.

Question 13a

Ranked first and second regarding jobs most desired without a requirement of more training were teaching and nursing. Ranked third were those who stated they would want to hold the jobs they presently hold.

Question 13b

Most sheltrees listed \$2500-\$5000 as the expected salary in the most desired professions. Ranked second were those who stated an expected salary of \$5000-\$10,000.

Question 14

When asked if they felt at ease leading a group of people, more sheltrees answered yes than answered no.

Question 15a

1. The position of President was listed at the top with 36 Ss presiding in some organization.
2. Age group 30-39 had the most Ss holding these positions (12), and age group 14-19 ranked second (9).

Question 15b

1. Ss who had held executive positions indicated that most (18) of them had 11-20 people under them.
2. Ranking second were the Ss who indicated that they had 31-40 people under them.
3. Ss in the 14-19 and 30-39 age groups constituted the majority of the total of the first two ranks who gave responses to this item.

Question 16a

1. Editorials ranked first as first choice.
2. Comics ranked second as first choice.
3. Sports ranked third as first choice.

Question 16b

1. Front page ranked first as second choice.
2. News ranked second as second choice.
3. Sports ranked third as second choice.

Question 16c

1. Comics ranked first as third choice.
2. Sports ranked second as third choice.
3. Editorials ranked third as third choice.

Question 17a

Most sheltrees were from small towns around the Athens area.

Question 17b

More than one-half of the Ss indicated that they lived from 9-15 years in the town in which they were raised; approximately 45% of these were in the age group 14-19.

Question 18a

Most shelterees live in small towns rather than cities or rural areas.

Question 18b

1. Approximately one-third of the Ss indicated that they had been living in the town in which they now live for 10-20 years.
2. Most of the Ss ranking the 10-15, 15-20 year choice were in the 14-19 age group.

Question 19

Most shelterees listed fewer than ten close friends.

Question 20

1. The annual income ranked first was the less-than-\$2500 bracket.
2. Ranking second was the \$2500-\$5000 bracket.

Question 21a

Eight of the 119 Ss responding to this item had been arrested.

Question 21b

1. Six of the eight Ss who indicated that they had been arrested gave response to this item.
2. Charges of drunkenness and demonstration ranked first and second in the order mentioned.
3. Traffic and speeding charges ranked third, fourth, and last.

Question 22a

Approximately 20% of the Ss indicated that they were or had been in a branch of the Armed Services.

Question 22b

1. Navy ranked first in the responses of those who were in the Armed Forces
2. Army was ranked second.

Question 23

1. Non-commissioned was selected more than any other rank in the choices of Commissioned, Non-commissioned and Enlisted ranks.
2. Commissioned was second and Enlisted third.

Question 24

1. Ranked first were 0-2 years of service.
2. Ranked second were 3-4 and 16-20 years.

Question 25

1. One hour/day was ranked first. Approximately 20% of the Ss were in this grouping.
2. Two hours/day were ranked second.
3. Zero hours/day was ranked third.

Although many shelterees had talked with people who had been in previous studies, the majority had not done so.

Table A-31

Criteria for Scoring Statements in Unstructured Diaries

**(June 19, 21, 23, 25 - 1965 and
September 10, 11 - 1965)**

ES VII and ES VIII

1. Statements were scored either negative or positive. If a statement was contradicted by another statement, neither statement was scored. For example, "I like the shelter. I don't like it here because there's no TV." was not scored.
2. No category was scored more than once. For example, "Food" was scored but once regardless of how many times the writer mentioned it unless the type of food was specified.
3. Sometimes more than one category per statement could be scored. For example, "The food is bad but especially the crackers" would be scored negative for "Food" and negative for "Crackers."
4. Ambiguous statements were not scored.

Criteria for most of these categories are self-evident.

<u>Category</u>	<u>Criteria:</u>
Amount of food:	A statement like "I am hungry" was scored negative.
Food:	
Crackers:	
Carbohydrate supplement:	
Water:	
Amount of water:	A statement like "I am thirsty" was scored negative.
Cups:	
Sleeping:	Statements such as "I couldn't sleep because it was too crowded" and "I found sleeping difficult because people kept stepping on me all night" were scored negative for "Sleeping" as well as negative for "Space" and "Other People," respectively.
Space:	
Floor:	Statements like "The floor is too hard" were scored negative. Statements like "The floor is too dirty" were scored negative for "Sanitation" rather than "Floor."
Noise:	Statements like "The shelter is noisy" were not scored negative unless the shelteree gave evidence that the noise was bothering him. Otherwise, it was assumed he was merely describing his environment.
Commode Odor:	
Height of commode:	

Toilet: A statement like "The bathrooms are awful" was scored negative. A statement like "The bathrooms are awful. The odor is killing me" was scored negative for "Commode Odor" only.

Other People: A statement like "I like the people here" was scored positive for "Other People."

Sharing: A statement like "People are so willing to share with you" was scored positive for "Sharing." A statement like "I like the people here; they're so willing to share with you" was scored positive for both "Sharing" and "Other People."

Cooperation: Statements like "Everybody seems to be cooperating" were scored positive.

Organization: Statements like "The schedule seems to be working well" were scored positive.

Staff: Statements in which one or more staff members were mentioned were scored in this category. "I like our Section Leader" would be scored positive.

Sanitation:

Personal Sanitation: Statements like "I hate being so dirty" were scored negative.

Lighting: Statements like "The lights bother me" were scored negative.

Temperature too hot: Both of these are negative categories. A positive score meant the temperature was considered comfortable.

Temperature too cold:

Lack of bathing facilities: "I wish we had somewhere to wash our hands" was scored negative.

What to bring: "We should have been told to bring sleeping equipment" was scored negative.

Lectures:

Vespers:

Recreation: "I liked the Bingo game last night" was scored positive.

Exercise, too much:

Exercise, too little:

Exercise: "I like the exercises" was scored positive.

Boredom: "I am bored" was scored negative. "I have not been bored at all" was scored positive.

Camera: "The cameras bother me" was scored negative.

Supplies Brought In: "I should have brought another blanket" was scored negative.

Physical feeling: "I am nauseated today" was scored negative.

Children: "The children are running and jumping too much," "The children are too noisy," and "Parents should discipline their children more" were scored negative. Note that the second example is not scored for "Noise" and the third not scored for "Other People."

Generally Positive: Statements like "I like being here" and "This study has been a wonderful experience for me" were scored in this category.

Generally negative: Statements like "I don't like it; I'm going home" were scored in this category.

Not enough activities:

Things are getting better: "Things are better now than they were" was scored in this category.

Things are getting worse: "Today has been the worst day of all" was scored in this category.

Smoking:

- Odor:** General odors were scored in this category. Note that commode odors were scored in "Commode Odor."
- Shelves:** "We need shelves along the walls" was scored negative.
- Tired:** "I'm tired today" was scored negative. "I'm tired and nauseated" was scored negative for "Tired" and negative for "Physical Feeling."
- Ventilation:** "We need more fans in here" was scored negative for "Ventilation" rather than "Too Hot."
- Activities:** "The activities have been nice" was scored positive. Note that there is a separate category for "Not Enough Activities."
- Time:** "Time is passing so slowly" was scored negative. "Time is going by faster now" was scored positive.

Appendix F

**Emergency Operating Center Program
(ES VIII)**

Emergency Operating Center Program
(ES VIII)

I. Pre-Entry:

The main supply area is to be inadequately stocked, in that five carbohydrate boxes will be located in Room D, away from the main stocks.

II. Entry and Permanent Phases

Friday

4:15 P.M.

Try to contact the shelter by phone. If there is no answer, continue trying at five minute intervals. When contact is made with the Communications Man, present this message:

"This is the Emergency Operating Center for the Athens area. Write down each of the following questions and call us as soon as you have the information.

1. When did you first detect an increase in the radiation level? What was the reading?
2. When was the shelter filled?
3. Are enough supplies stocked in your shelter to feed you?
4. Are there any injured or ill people in your shelter? If so, how many and what injuries or illnesses?
5. Is there any communication equipment besides a phone in your shelter (ex., ham radio set, portable radio)?
6. Make a list of all fire extinguishers and other tools in the shelter.
7. Is your ventilation adequate?
8. Are there any Civil Defense workers in your shelter? If so, what training have they had?

We will be in contact with you again."

4:30 P.M.	Make sure the radiation meter is set on	0.00
4:50	Set radiation meter on	0.01
4:55	" " " "	0.10

Saturday

1:05 A.M.	Set radiation meter on	0.65
3:15	" " " "	0.50
5:20	" " " "	0.36

7:35 Set radiation meter on 0.30
7:40 Present this message:

"This is the Emergency Operating Center. What is your present in-shelter radiation rate?"

9:30 Set radiation meter on 0.25
11:15 Present this message:

"This is the Emergency Operating Center. Our calculations show there are three hot spots within the Athens city limits. These are located in the areas of the Beechwood Shopping Center, the Varsity downtown, and the intersection of Milledge and Lumpkin. If you must leave the shelter for any reason, avoid these areas. Remember to have any trip out of the shelter OK'ed by the Emergency Operating Center."

12:15 P.M. Present this message:

"This is the Emergency Operating Center. What is your present in-shelter radiation rate?"

2:20 Present this message:

"This is the Emergency Operating Center. Several of the downtown shelters have high in-shelter radiation rates. Now that the general outside radiation level is lower, the occupants of those shelters need to be moved. Does your shelter have enough food, water, and space to accept some of these people? If so, how many? Answer as soon as possible."

2:40 Set radiation meter on 0.16
3:30 Present this message:

"This is the Emergency Operating Center. The extra people from the downtown shelters have been placed in shelters less crowded than yours. None will arrive at your shelter."

5:45 Set radiation meter on 0.13
6:10 Present this message:

"This is the Emergency Operating Center. What is your present in-shelter radiation rate?"

9:00	Set radiation meter on	0.10
9:20	Present this message:	

"This is the Emergency Operating Center. Take an inventory of all your supplies. Give us this information immediately."

Sunday

12:10 A.M.	Set radiation meter on	0.09
6:05	" " " "	0.07
8:30	Present this message:	

"This is the Emergency Operating Center. What is your present in-shelter radiation rate?"

11:35	Set radiation meter on	0.05
12:50	Present this message:	

"This is the Emergency Operating Center. Assign five physically capable people to serve on each of the Decontamination Teams:

1. Food Decontamination Team
2. Water Decontamination Team
3. Street Cleaning Team

Give us a list when you have finished assigning the jobs. We will inform you when they are needed."

1:30 Present this message:

"This is the Emergency Operating Center. Check to see if anyone in your shelter is experienced in driving farm machinery or road-working equipment. Call us as soon as you have a list of such people."

2:30	Set radiation meter on	0.02
------	------------------------	------

**Shelter Responses and Calls to EOC
(ES VIII)**

<u>Date/Time</u>	<u>Message</u>
9/10 4:35 P.M.	Director of Operations answered and said a Communications Man had not yet been appointed.
4:40 P.M.	Communications Man contacted and given Message 1 (the eight questions to be answered).
5:35 P.M.	Communications Man called to determine how many people should be let into the shelter. EOC answer: Let all the people who are at the door in right away.
5:45 P.M.	Communications Man called to ask if there was another shelter to which some of the people could be sent. EOC answer: All the people must remain in the shelter at this time.
5:47 P.M.	Communications Man called to ask if the empty water drums could be removed from the shelter area to free more space. EOC answer: The drums must remain in the shelter.
6:45 P.M.	Communications Man responded that the inside radiation level was 1.5r/hr.
6:50 P.M.	Communications Man answered eight questions of Message 1. 1. First radiation reading of 5.5r/hr. at 5:00 P.M. 2. Shelter filled at 6:25 P.M. 3. Enough supplies are stocked for the sheltrees. 4. One sheltree is feeling faint. 5. No other communication equipment.

6. A fire inspection station was set up.
7. Ventilation adequate.
8. No Civil Defense workers in the shelter.

9/10 8:20 P.M. Communications Man contacted and asked for names of staff members.

8:30 P.M. Communications Man phoned out the following staff members' names: Shelter Manager, Assistant Shelter Manager, Director of Activities, Director of Training, Director of Operations, Director of Supply and Maintenance, Director of Radiological Monitoring and Communications, Head of Shelter Medical Staff.

8:59 P.M. Communications Man contacted and asked for names of Administrative Clerk, Head of Fire Control Team, and Section Leaders.

10:40 P.M. Micro-switch did not work when shelter tried to call EOC; therefore, EOC called the shelter. Communications Man provided the names of the Administrative Clerk and Head of Fire Control Team.

9/11 7:40 A.M. Shelter contacted and replied that the in-shelter radiation rate was .35r/hr.

11:30 A.M. Communications Man received message of three hot spots in the Athens city limits.

12:15 P.M. Shelter contacted and replied that the in-shelter radiation rate was .1r/hr.

2:20 P.M. Communications Man contacted and asked if the shelter had sufficient supplies and space to accept more people. If so, how many?

2:30 P.M. Shelter Manager replied that if more people were admitted, sleeping would have to be done in shifts because of cramped space (their estimate was 6 sq. ft. per person). Had enough food for 340 people for two weeks; enough water for four days. Worried that they would need more Sanitation Kits even for 340 people.

- 9/11 3:30 P.M. Communications Man told that no people from other shelters would arrive at this shelter.
- 6:10 P.M. Communications Man responded that in-shelter radiation rate was 0r/hr.
- 9:20 P.M. Communications Man asked to report inventory of supplies.
- 9:30 P.M. Inventory was reported to EOC: 22 boxes of crackers 7 boxes of carbohydrate supplement, and 18 1/2 drums of water.
- 9/12 8:30 A.M. Communications Man responded that in-shelter radiation rate was 0r/hr. Also reported the eight Section Leaders' names.
- 8:55 A.M. Radiological Monitor called to report that the radiation survey meter registered a negative reading. It had shown no circuit check at 10:30 P.M. 9/11/65.
- 12:50 P.M. Communications Man contacted and asked to get five physically capable people to serve on each of three decontamination teams.
- 1:30 P.M. Communications Man contacted and asked to report any people with experience in driving farm machinery or road-working equipment.
- 2:00 P.M. Shelter Manager called with list of five people for each of the decontamination teams. Also a list of five of those with experience in heavy machinery.
